

15th May 2019

After completing eighteen months since the start of the OActive project, the OActive consortium members met during 14th and 15th of May 2019 in Luxemburg to present the project's progress and new advances. During the first-day, presentations were about the state of the project implementation in different work packages (WPs). WP leaders presented the work performed, as well as any drawbacks and next steps for the upcoming months. During the second-day, partners presented new advances and tasks evolution to the project officer and the reviewers, that evaluated and commented on the project's progress. The day started with an initial presentation of deliverables and milestone status. Then, ten sessions followed, one for each WP. Questions and suggestions were formulated by reviewers during different partners presentations, taking note of the valuable feedback.
